DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 31-34 are rejected under 35 U.S.C. 102(b) as being anticipated by Sugawara et al. (5,829,219).

Sugawara et al. disclose a vehicle roof frame comprising side frame members (12) and cross members (14). The side frame members (12) have protrusions (15) that have an upper portion with a corrugated configuration. The cross members (14) have corrugated end portions (23) that receive the protrusions (15). The end section of the cross members (14) and the upper portion of the protrusions (15) have matching shapes that align. The cross members and the protrusions are welded together. The bead of the weld is considered a releasable fastener because it can be broken to release the connection between the two components.

Allowable Subject Matter

3. Claims 1-5, 7-14, and 20-30 are allowed.
